Australasian news

- **Australian National University (ANU)** has several new open texts, including:
  - *Leading from the North: rethinking Northern Australia Development*
  - *Dictionary of world biography*
  - *Linguistic organisation and native title: the Wik case, Australia*

- **Queensland University of Technology (QUT)** has published an open resource on scholarly communication.

- Congratulations to **USQ academic, Eseta Tualaulelei** who has received the **OE Global UNESCO Implementation Award** for her work on open assessment and its inclusion in the **OE Global Conference**.

- The **University of Southern Queensland (USQ)** has published an open text entitled *Visual for influence: in project management and beyond* by Bronte van der Hoorn. This book has 24 visuals to download, adapt and deploy to engage your stakeholders. This practical guide will build your confidence and practical skills to quickly and effectively leverage the benefits of visuals to maximise your influence.

International news

- **OER Institute**: A newly launched **Institute on Open Educational Resources** will support institutions and faculty in adopting OER. Some 66 institutions have joined, supporting educators in launching, expanding or hastening campus adoption of free and affordable instructional materials. The institute was launched by the Association of American Colleges and Universities.

- **Inclusive Access**: Last week marked the launch of **InclusiveAccess.org**, a community-driven initiative to raise awareness of the facts about automatic textbook billing. It’s a one-stop-shop for information, tools, and other resources to help administrators, faculty, students, and policymakers make informed decisions about the Inclusive Access sales model and its implications for the campus community, including how it differs from OER. Inclusive Access is a textbook sales model that adds the cost of digital course content into students’ tuition and fees. The initiative was developed by SPARC and is covered in the **Chronicle of Higher Education**. Read more on their website.

Professional development opportunities

Readings

- Diversity OER through inclusive imagery by Nikki Andersen
- CAUL and Open Access Australasia have developed a poster of 20+ years of open in Australia
- Catch-up on posts from CAUL’s Enabling a Modern Curriculum blog: Unity in diversity: findings from the Open Textbooks in Australia project by Frank Ponte
- Advocating for more OER-friendly copyright regulatory frameworks, Mirage News

Podcasts

- Tales of Teaching Online: Dr Jo Elliott catches up with Dr Sarah Lambert to learn about open educational resources and how they can benefit our students and communities. Sarah shares suggestions for getting started with open textbooks and other open resources, and some initiatives growing OER in Australia.
- Gettin’ Air with Dr. Maya Hey. The ingredients for this episode include public scholarship, open education, fermentation and a doctoral defense and it all comes together into a tasty conversation!
- Gettin’ Air with Abbey Elder. Open Access, Open Education and Cootie Catchers. That should be all you need to know to convince you to listen to what Abbey Elder, Open Access & Scholarly Communication Librarian for Iowa State University, has to say.

Useful resources/other professional development

- The Climate Collection: A collaboration between TED Countdown and Fine Acts, Artists for Climate is a global open call that sought digital illustrations targeting climate change, with a focus on hope and solutions. The Climate Collection has been published online under a Creative Commons license and is available for anyone to use and adapt non-commercially to help shift the global narrative of the climate crisis towards a brighter future.
- Open Education Network’s Certificate in OER Librarianship
New open texts by discipline

Arts and humanities
- Introduction to narrative journalism by Benjamin Wielechowski (US)
- Music in world cultures by Mihalka et al. (US)

Business and management
- Visuals for influence: in project management and beyond by Bronte van der Hoorn (Aus)
- Principles of marketing by University of Minnesota Libraries Publishing (US)

Education
- Foundations of educational technology by Penny Thompson (US)
- Writing for success by Scott McLean (US)

Engineering and maths
- Basic concepts of structural design for architecture students by Anahita Khodadadi (US)
- Trigonometry and single phase AC generation for electricians by Chad Flinn (Canada)

Health and wellbeing
- Public health in pharmacy practice: a casebook by Covvey et al. (US)
- Human development by Portland State University (US)

Indigenous Studies
- A dictionary of Vurës, Vanuatu by Catriona Malau (Aus)
- ECHO: Ethnographic, Cultural and Historical Overview of Yukon’s First Peoples by Castillo et al. (Canada)

IT and statistics
- Mostly harmless statistics by Rachel L. Webb (US)
- Cellular Internet of Things for practitioners by Vahidnia & Dian (Canada)

New open texts by discipline cont.

Law and politics

- Linguistic organisation and native title: the Wik case, Australia by Sutton et al. (Aus)
- Communications in law enforcement and the criminal justice system: key principles by McCartney & Patters (Canada)

Sciences

- Vital sign measurement across the lifespan, 2nd Canadian edition by Lapum et al. (Canada)

Open teaching resources

- Virtual Labs in Biology
- Virtual Labs in Math

Good news stories

La Trobe University Library staff have successfully won a university grant application for learning & teaching projects. The grant will be used for creating a range of OER. This win was achieved in partnership with biochemistry lecturer and La Trobe eBureau open textbook author Julian Pakay. Steven Chang and Sebastian Kainey from the Library were named co-chief investigators for their roles in shaping the proposed outcomes of the project.

The grant funds ($3000) will be used to enrich the La Trobe eBureau project in development, Foundations of biomedical science: quantitative literacy theory and problems, by supporting the creation of professionally produced videos to be embedded in the text. They will cover authentic practice and real life examples from clinical practice, research, and pathology. This suite of multimedia resources will follow in the footsteps of the highly popular eBureau OER video collection, Research and evidence in practice, embedded into the open textbook by the same name. These were cited in this grant application for this new project.

Thanks to Steven Chang for this contribution.

Have a story to share?

Email Nikki Andersen with the details and we’ll ensure you’re credited in the Digest.
