ClinicalKey for Nursing is an excellent resource to assist with understanding your topic concepts and selecting appropriate keywords.

From the Nursing and Midwifery key resources select ClinicalKey For Nursing

Type your main search term

You can select the suggestions that appear as you type

The overview or definition that appears on the right is an excellent source of information on the condition. This is a good place to start
Selecting the Disease Overview:

- Make your search more specific to find relevant articles.
- Useful links to related information can be found on the right.

These headings will help you navigate the overview. You may find useful information here for questions 7 & 8.

Finding research articles:

- Make your search more specific to find relevant articles.
- Use the filters on the left to narrow the search for full text articles.
- Select the title to read the full article. Remember to evaluate your articles to make sure they are relevant and suitable for the assignment.

You can use additional filters to reduce the number of results further.
